Industrial Rubber Exports Company Profile

1988

About **HIC** Start-up

Began in June, 1988 with composite units, comprising Textile making industrial fabric for belts and Rubber factory of transmission belting, hygienic conveyor belts in Prahladpur, Delhi supplied all-over India to rice mills, agricultural threshers, flour mills, sugarmakers, tyre industries and tea estates.

Today, privileged to serve thousands of industries with wide range of super quality manufactured industrial products in Asia, Oceania, Africa, America and other markets.

Our **Mission**

Company understands that in every factory, industrial products demands **performance** in critical and extreme conditions. Any premature failures could wreak havoc with their optimum production plans.

At HIC International, our mission is to manufacture **tested quality Cost-effective Bulk Conveyor Components, Power Transmission Parts, Insulation Safety Flooring and Packing, Hydraulic High Pressure Pipe and Fluid Fittings**, tailor-made to customer's specifications **within stipulated delivery time, providing Long Life Reliability.**

Total Quality Management principles are followed and True Performance is thus assured.

Our **Rubber** Products

HIC company always believed in producing high quality material conforming to relevant to IS, DIN, IEC, ASTM, BS standards, using eco-friendly environment & good sourcing practices, be it:

Conveyor Belt, Idler, Fastener for *Continuous Material Handling*;

Drive Belt, Coupling, Pulley for *Break-free Power Transmission*;

Insulation Mat, Sheeting, Skirtboard for *Secured Dielectric Leakage Safety*;

Hydraulic Hose, Quick Camlock, Valve for *High Pressure Fluid Flow*.

Our **Team**

SSI rubbers manufacturing unit, dedicated team of 63 workforce having rubber technologist, chemical compounders - chemist, mechanical and maintenance engineers, skilled labor, quality control inspector and laboratory in-charge, best management experts in Delhi and UP located factories in India.

Quality Assurance

Quality Control is of prime importance at HIC Rubber Products Manufacturing

Compulsory for "HIC Universal" products produced conforming to exacting International Standards involving **material testing** and **safety performance** checks to ensure long lasting quality is supplied.

- QAP1.** Raw materials sourced *indigenously as well as from outside India validated with Test Certificates to ensure consistent quality manufactured every time in compliance with the order specification.*
- QAP2.** Engineer reviews CTQ (Critical-to-Quality) **dimensions** of new production item.
- QAP3.** QC Technician examines *for allowable tolerances, potential defects and general quality assurance.*
- QAP4.** QC Engineer inspects *randomly pulled Rubber manufactured products, Machined Steel parts, PVC articles from production floor; entire data is documented in compliance with ISO in computer system and linked back to customer's purchase order.*
- QAP5.** QC Lab Technician conducts *detailed material test report in accordance with relevant BIS, DIN, BS, ASTM, IEC, SANS, AS, JIS, ISO quality standards.*
- QAP6.** Factory Supervisor inspects *tailor-made Conveyor Drive Machinery Parts made of rubber & machined steel, Safety Flooring Packing made of synthetic rubber, Hydraulic Delivery & Fluid Fittings made of rubber & stainless steel, custom-made industrial goods prior to packaging and final shipment.*

Full-proof Tests Quality Assurance Plan

(1 Year Warranted Products by HIC International Co)

100% **Physical checks** with respect to dimensions,

100% **Chemical checks** w.r.t. MOC,

Customer Industries and Geographies

An **endless list** of satisfied business industries of "HIC Universal" brand exists as of today, and, have acclaimed for optimum efficiency & high life.

Providing Master Solutions combining best quality & reliable production technology, within India & major parts of Asia, Africa, Europe, South America, Oceania, North America:

- Tea estates
- Power plant
- Sugar mills
- Cement factories
- Food industry and dairy
- Government company
- Mining mineral industry
- Nuclear power plant
- Oil & gas industry
- Construction industry
- Textile industries
- Paper mills
- Steel foundry and sand
- Airline industry
- Fertilizer & chemicals plant
- Automobile industries
- OEM's of machinery and equipment

Key Factors made **HIC Unique**

Since inception in 1988, Company has fostered creativity – with **proven** track record of performance. Challenging spirit propels “HIC Universal” to make unmatched quality.

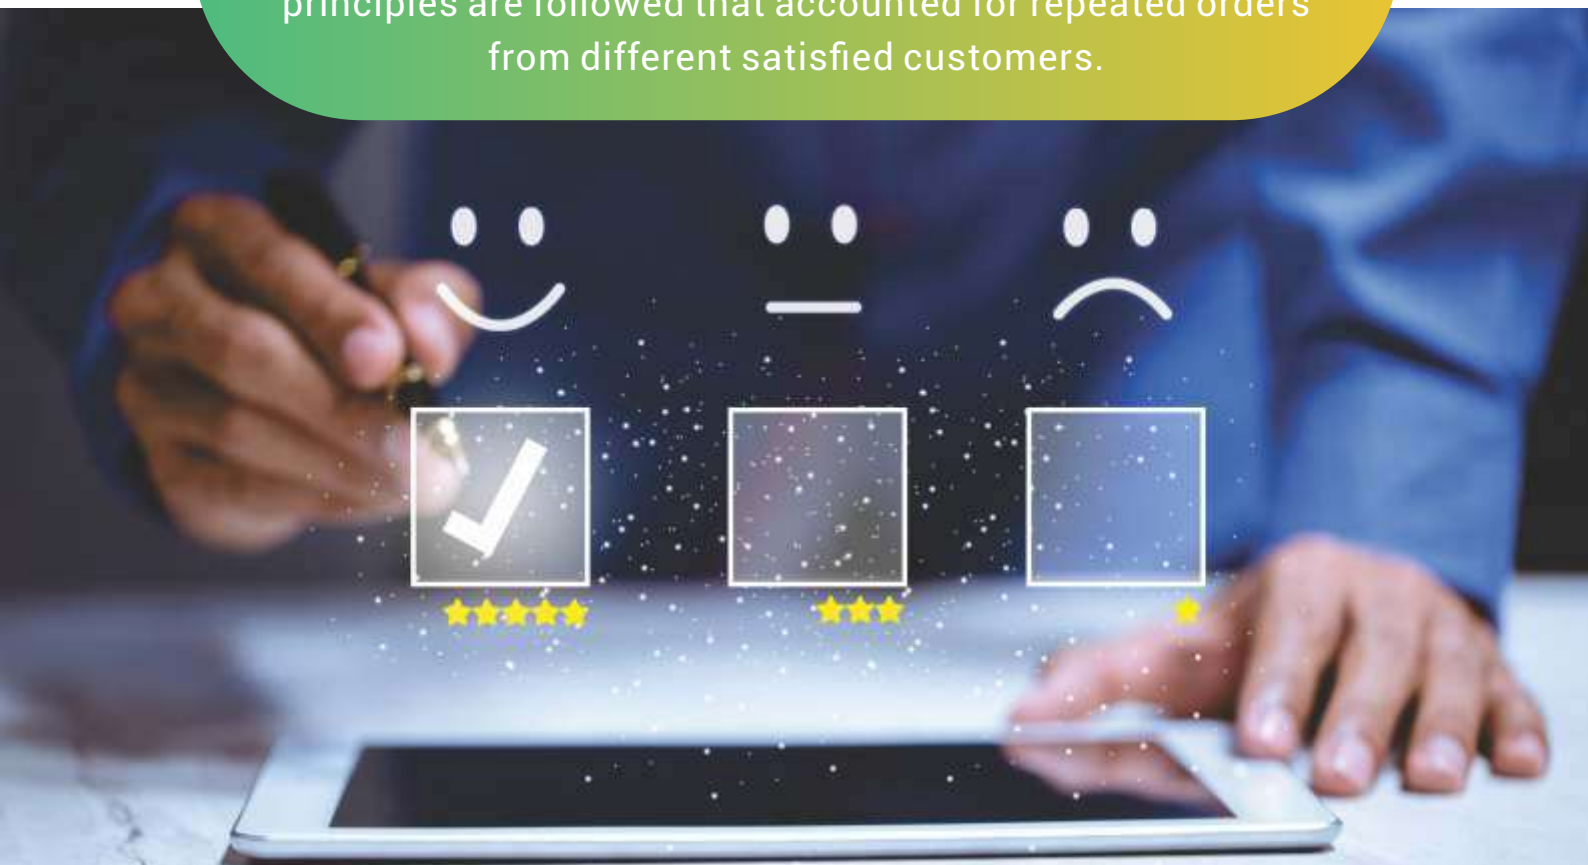

Principles fundamentally followed:

- **Tested** Quality **Raw Materials** from Approved Vendors Used
- **Tailor-Made** to Ordered Specs. & Superlative Performance
- **Delivery** as Per Agreed Time Stipulation

1990

National **Expansion**

Commitment to excellence, **perfection** to the minutest degree, latest know-how had been the hall-marks in manufacturing activities. **Total Quality Management** principles are followed that accounted for repeated orders from different satisfied customers.

1993

International Expansion

Accumulated study of various materials and years of hard and intelligent work led to **proven** knowledge base.

This accounted for rapid growth in the form of **repeated orders** from various customers on regular basis.

1997

Won Export Excellence Award

Aggressively pursued exports and honored Gold Medal & Excellence Award by the then Finance Minister of India in Feb. 1997, keeping International approach.

"HIC Universal" products, about 30-40% to domestic sales accounts were exported to quality dictating European countries.

AWARD in 1997 Feb-HIC Export Excellence to A.Gupta by then Finance Minister

2007

International Expansion

Strong **QC** and stringent **Quality Assurance systems** ensured "HIC Universal" brand leadership and **Proven Reliability**.

Challenging spirit and Prompt Customer Concern are the fundamentals behind growth & success today.

In-house R&D – various rubber and machined steel products as per drawings are developed combining best technology for longer life and economy.

Test Certificate of our Lab, are forwarded along with the supply. Additionally, geared up to offer **Third Party Inspections** by DNV, EIL, RITES, SGS, CPRI, etc. as well.

For Fast Water, Steam, Vacuum & Air Connect Disconnect

Ship Loading, Fuel Tanker Unloading, Aviation Flammable Liquids, Chemical Dry Powders, Beverages Handling, **17~35 bar Pressure, CAMLOCK FITTINGS:**

Adaptor (F) **Part A**; Coupler (M): **Part B**; Hose Shank Coupler: **Part C**;
Coupler (F): **Part D**; Hose Shank Adaptor: **Part E**; Adaptor (M): **Part F**;
Dust Cap: **DC**; Dust Plug: **DP**

Refrigeration, Gas, Air Conditioning, Automotive, **Double Check Valve Coupler Adapter Set 70~280 bar Pressure, HYDRAULIC Quick Release Coupling**

Automotive, Electronics, Power Tools, Food Processing Compressed Air, **Single Check Valve Coupler Adapter Set 10~28 bar Pressure, PNEUMATIC Quick Acting Coupling**

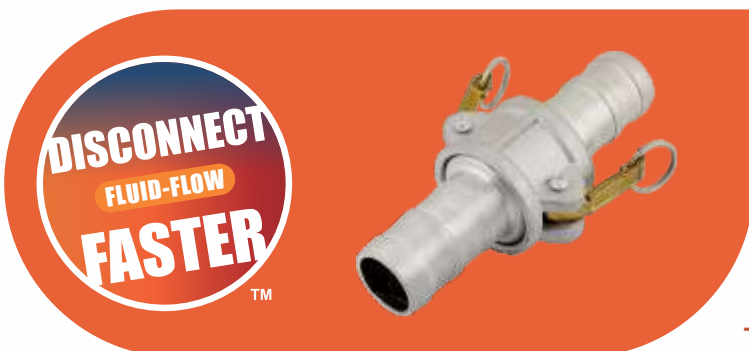

Agricultural ISO 7241 A up to **350 bar Pressure, Interchangeable HYDRAULIC COUPLERS**

BODY MATERIAL: SS 316, SS 304, CS chrome plated, Brass

'O' RING SEAL: Nitrile (standard), Silicone, Viton

SIZES & THREAD: 2~8 inch Cam Groove Coupling; 1/2~3 inch QRC; BSP, NPT;
Male, Female

TEST CERTIFICATE w.r.t. Threading Gouge, Test Pressure, etc.
as per DIN2838, DIN 2826, ISO 7241 Series 'A' Interchange

Delivery Lead Time: Generally, within 5-6 weeks
Production Capacity: 75,000 nos. per annum

High Pressure Flow Regulating

HIC
UNIVERSAL

Highest Temperature Safe Control Valve

For Leak-free Water, Gas, Fluid Flow Shutoff

Water Well Mud Pump, Asphalt Release, Wastewater, Military Fire Truck Fluid, Cryogenic, Forklift Hydraulic Control, Chemical Dosing, Gas Mixing, 2-Way, Three Way L or T Port Mixing, 4 Way Multi Diverting, Full & Reduced Bore, 50~1000 bar Pressure BALL Type

Instrumentation Process, Gas Regulating, 20~500 bar, ASA300# Pressure NEEDLE Type

Sewage Flow Quarter-Turn, Beverages Hygienic, Sanitary Water, Low Pressure Drop, up to ASA150# Pressure Wafer BUTTERFLY Type

Oilfield, Power Generation, Acid & Alkali Isolation Plumbing, up to ASA300# Pressure GATE Type

MATERIALS, MOC: SS304 Corrosion Resistant Stainless, Ultra Pressure & Temp. Up to 450° C Rating CARBON STEEL, Isolation, Light Weight FORGED STEEL, Cold Temp. Resistant BRASS

SEALS of Body and Stem for application: Steam (CFT); Acids (FKM Viton); Chemicals (GFT); Fire (GRAPHOIL); Hydrocarbon (NBR); Nuclear Radiation (PEEK); Natural Gas (POM); Cryogenic (PTFE Teflon); Hot Air (MQ Silicone)

END CONNECTION: Threaded BSP/ NPT female/ male OR Flanged Class ASA/ DIN/ BS OR Socket weld OR Butt-weld

SIZES: ½ inch (12 MM NB) up to 16 inch (400 MM NB)

TEST CERTIFICATE w.r.t. Test Pressure, Seal, etc. as per ISO 9884, ISO 10423, ISO 5752, ISO 5996

Delivery Lead Time: Generally, within 5-6 weeks
Production Capacity: 50,000 nos. per annum
